In the bottom left, there is a coffee grinder. In the bottom center, there is a bowl of coffee beans. In the bottom right, there is a cup of coffee with chocolate and cinnamon sticks.

Cafe Management Project Proposal for SWEN 261

By : Meera Alshara, Syed Iftesam, Mouza Alameri , Francois Motte and Ali Hamie

Project Vision

FOR upcoming entrepreneurs in the coffee shop industry

WHO require a cost-effective and efficient way to run daily cafe operations

THE Cafe Management System **IS A** centralized, all-in-one digital platform

THAT manages order tracking, inventory control, delivery management, and service offerings, while reducing operational complexity through an easy and convenient interface and a fair commission system

UNLIKE complex or expensive enterprise cafe solutions

OUR PRODUCT is affordable, easy to use, and flexible for new entrepreneurs, offering saved operational documentation, flexible pricing plans, and three months of maintenance support tailored to their budget and stage of growth

Project Overview

This project is being developed as a part of the SWEN 261 course at RIT Dubai, instructed by Professor Ali Assi. The system allows for different types of users to interact with a cafe catalog, manage items, and process collections using a modern architecture
